

BACK By Popular Demand

"The play presents Autism at the forefront, but the theme is universal for any family. Everyone has to deal with something. It has a message that reaches far beyond Autism and will touch whoever comes to see it. You need to bring it back so all my friends and extended family can see it!"
- Colleen, Audience Member

"I was afraid the play would be depressing or 'preachy'... but it was so engaging, packed with raw human emotion and truth, was very informative and quite funny! I think the play touched everyone in the audience, not just those who are dealing with autism. I learned so much, laughed out loud several times, and cried, too. I don't think I've ever seen a play as personal and powerful as this one was. No wonder the critics love it!"
- Joe, Audience Member

"It was simply FANASTIC! I want to thank you so much for providing us with the opportunity to see your play. It was a life-changing experience for so many of our staff that attended [the in-service]. Please thank your cast and crew for a job very well done! We are hoping to bring the play back next year for the Secondary staff."
-Jacque, Elem.Special Education Teaching & Learning Specialist, Anoka-Hennepin School District

THE OUTREACH TOUR

The premier of Autistic License at the Illusion Theater received rave reviews by audiences & critics alike. Named by the St. Paul Pioneer Press as one of the **10 Best Plays of 2007** and then nominated for the national **Theater Critics New Play Award** this beautifully crafted play stands alone as an excellent piece of theater, not simply a show of interest to those affected by autism or disability. It so profoundly impacted audiences that a grass-roots effort was made to bring this important work out to seven metro-area communities and schools during April 2008, Autism Awareness Month. Audiences packed the houses and have clamored for more shows. To meet the demand, we are planning another outreach tour for April '09 with this professional, traveling play produced by Illusion Theater. We hope you'll be inspired to sign-on as a sponsor so we can reach as many communities as possible!

The CDC reports national statistics of 1 in 150 children diagnosed with autism, making it more common than pediatric cancer, diabetes and AIDS combined.
